Project No. 14412-000

Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments,
Motions to Intervene, and Competing Applications; Telluride Energy, LLC

On May 17, 2012, Telluride Energy, LLC filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act, proposing to study the feasibility of the Chatfield Lake Hydroelectric Project (Chatfield Lake Project or project) at the U.S. Army Corps of Engineers' (Corps) Chatfield Lake and dam on the South Platte River, near the City of Littleton in Alameda and Douglas Counties, Colorado. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) a new penstock that would take water from the existing Chatfield Lake; (2) a new powerhouse at the base of the existing Chatfield Lake dam containing a 0.5-megawatt turbine-generator; (3) a new estimated 1,500-foot-long primary transmission line connecting the project to Excel Energy's transmission lines north of the project; and; (4) appurtenant facilities. The proposed project would have an estimated average annual generation of 1,400 megawatt-hours and operate utilizing releases from Chatfield Lake, as directed by the Corps.

Applicant Contact: Mr. Kurt Johnson, Telluride Energy, LLC, 100 West Colorado, Suite 222, P.O. Box 1646, Telluride, CO 81435; phone: (970) 729-5051.
